

RECLINING PHLEBOTOMY CHAIR

YA-DS-R03

YA-DS-R03 Chair Recliner offers comfort and durability to patients in hospitals, clinics or assisted living facilities. This chair has three traditional positions - a deep recline, elevated leg rest and full upright, operated by a retractable lock bar, securing the chair in each desired position.

- Ideal for long term care facilities, retirement homes and nursing homes.
- Three positions: upright, deep recline, and elevated leg rest/footrest
- Retractable lock bar secures the chair in the desired position
- Padded push-handle for easy maneuverability.
- Extra-wide padded armrests and side panels maximize comfort
- Blow-molded tray locks in 5 positions and can be stored on the side of the chair
- Durable epoxy coated welded steel frame is easy to clean and maintain
- Articulated headrest quickly adjusts to maximize comfort
- Chair is easy for patients to move and reposition
- Four swivel casters with locking casters in rear
